

# Assignment 1B

---

**Due** Mar 9, 2019 by 6pm    **Points** 33    **Submitting** a file upload

**Available** Feb 24, 2019 at 12:30pm - Mar 9, 2019 at 6pm 13 days

---

This assignment was locked Mar 9, 2019 at 6pm.

Assignment 1B:

- Take 25 images of three-wheelers (autos), where number plate is visible
- Download this zip file: <http://tinyurl.com/y5kggvw9> [\\_ \(http://tinyurl.com/y5kggvw9\)](http://tinyurl.com/y5kggvw9)
- Annotate 25 images for Class: [AUTO, DL4S9532] as explained in the class.
- Zip the 25 files with your annotations, and upload here

**Directions before you upload the files:**

1. Make sure you have added images you have taken as well.
2. Upload limit is **~20MB**, so make sure your image sizes are small.
3. You need to upload 1 (**one**) zipped folder which has the annotation files as well as images.
4. Make sure **you** can unzip this folder on another drive, and look at all the images/annotations. We know we may have to click "load project".
5. Make sure your annotations are correct, especially the number of plates
6. Make sure that you have taken photos from different angles, as this data would later be used for a project as your validation data.
