------------	-------------	---------------	-----	-------------------	---------------	------------------	-----------------------------

Change the 3B network such that it:

1. you have used a **block** of following layers: 32 (same) > 64 (same) > 128 (same) > 256 (same) > 512 (same) > MP
2. you use this block 4 (**four**) times (this four is wrongly mentioned as three in the content, you need to add **four blocks**)
3. you have provisioned to concatenate the output of **block 1** with the output of **block 4**
4. you have flattened the output of above concatenated 4 blocks, and fed it to the softmax layer
- 5.

trained the network for 50 Epochs
